New From Franke

Franke Foodservice Systems is now offering a new line of Beverage Carts with the quality, features and functionality that the foodservice industry is looking for.

Designed for Versatility

Franke Beverage Carts are available in a variety of sizes and exterior finishes, with multiple features and options to choose from, giving quick-serve and fast casual restaurants the ability to find exactly the product that meets their needs and specifications. In addition to serving as an ideal work station for Franke coffee machines or the BKON Craft Brewer, these mobile beverage carts offer the flexibility for use in almost any setting: schools, coffee shops, hospitals, stadiums or offices.

Franke Beverage Carts can be permanently or temporarily located as desired, supporting both on-board water and drain for temporary installations and permanent water and drain for permanent installations. Accessory carts are also available for support functions, including Cash/POS, condiments and other accessories.

Images shown are examples of capabilities, talk to us about your specific needs.
